Get to know your AT&T Cruise package

A cruise package covers you:

- If you're onboard a qualifying cruise ship. Your device will connect to the cruise ship's cellular network, and the network name "Cellular at Sea," "Nor-18", or "901-18" will appear in the upper left corner
- In port or on land in Canada, Mexico & select Caribbean islands

A cruise package doesn't cover you:

- If you're onboard a non-qualifying cruise ship
- In port or on land in an international destination, except for: Canada, Mexico & select Caribbean islands on eligible plans.

Stay connected on eligible plans in countries not covered by AT&T Cruise Packages

- With AT&T International Day Pass, you can talk, text and use your wireless plan data in over 210 destinations for \$10/day for your first line. You never pay for more than 10 days per line, per bill, and each additional line is \$5/day if used on the same calendar day. Plus, only pay for the days you use.

Coverage not available in all areas. **Terms and data allowance from your domestic plan, fees and other restrictions apply and are subject to change.** If you talk, send a text or use data in any of the included countries, you'll be charged \$10 per 24 hours and \$5 for each add'l line on the same account used the same calendar day unless you remove AT&T Int'l Day Pass. **Charge cap:** A max. of 10 daily fees per line, per monthly bill cycle. Go to att.com/intldaypass for details.

Cruise travel tips

The following tips will help you manage your costs and make the most of your AT&T Cruise Package:

Manage your apps

  Some apps consume more data than others. Knowing this in advance of your travels can help you avoid unexpected charges. Consider monitoring usage of:

- Apps that use location like navigation, news and weather
- Social media
- Video chatting
- Games with heavy graphics and those requiring an internet connection

Disable unused apps

  Disable any apps running in the background that you are not using.

For iOS devices: Go to Settings>General> Background. Turn Background App Refresh to OFF or WI-FI only.

For Android devices: Go to Settings>Connections> Data Usage. Turn Data Saver ON and select only the apps you want to allow to use data in the background.

Avoid streaming

Streaming content is extremely data intensive. You can download content before leaving the U.S. to avoid streaming movies, videos, music or other content while abroad.

Track your usage

You can track your cellular data usage with your device's auto-check feature. Reset the tracker once you reach your international destination.

For iOS devices: Go to Settings>Cellular. Scroll to bottom and click on Reset Statistics. Locate Wi-Fi Assist. You may want to turn Wi-Fi Assist OFF to avoid using cellular when you intend to use Wi-Fi.

For Android devices: Data usage is tracked by bill cycle, so make note of how much data has been used when you arrive. Or you can download a data usage app from Google Play.

How to add an AT&T Cruise Package to your account:

- Login to your MyATT account and add it to your line of service under Manage add-ons
- Call **800.355.4685** or **+1.314.925.6925** (free wireless call from abroad)

Disable email auto-check

Switch your phone's email settings from Push to Fetch. This allows you to manually download your email when connected to Wi-Fi.

Avoid sending or receiving large email files like pictures or videos when on the cellular network.

For iOS devices: Go to Settings>Accounts & Passwords>Fetch New Data. Turn Push to OFF and under Fetch below, select MANUALLY.

For Android devices: Turn Data Saver ON and make sure email is not selected to allow data usage in the background.

Use Wi-Fi connections when available

Wi-Fi usage does not count toward your data allowance. Check with your cruise line for details on available Wi-Fi options aboard ship. Using the ship's Wi-Fi services will minimize usage of the cellular network.

Data usage with iMessage

When you're traveling abroad, iMessage (and other calling and messaging apps) are treated as data rather than as text messages. Use of iMessage is billed as cellular data usage. To disable iMessage, go to Messages in the Settings menu.

Turn off data roaming

When you don't want to use cellular data, turn it off entirely. Go to Settings on your device and look for Cellular or Network options.¹

AT&T Cruise packages: Eligibility: Compatible device with domestic postpaid wireless service required. **Charges:** One-time charge applies on a per-device basis. Packages are valid for 30 days beginning on the chosen effective date, may cross 2 bill cycles, and expire automatically. Packages will not be prorated if canceled on or after the effective date. Packages canceled prior to the effective date will not incur the charge. **Coverage:** Packages apply to cellular use onboard select cruise ships sailing in international waters, and in select countries, listed at att.com/cruise. When you are connected to the ship's cellular network, "cellularatsea", "wmsatsea", "901-18" or "NOR-18" displays on your device. The ship must turn off its cellular network when it is within 12 nautical miles from land and docked or tendered in port, at which point cellular service is provided via the nearest country. **Countries:** Packages also apply to use in Mexico, Canada and select Caribbean Islands listed at att.com/cruise. If your cruise takes you to countries not included in your AT&T Cruise package, add AT&T International Day Pass or AT&T Passport to your device to cover your in-country usage. Go to att.com/global to review options. **Data:** Is only included in the AT&T Cruise Talk, Text & Data package. With the AT&T Cruise Talk & Text package, pay-per-use data rates apply. Actual data speeds vary by device and ship. If your domestic plan includes Stream Saver[®], or reduces video streaming speed, the same will apply to your Cruise package. Data overage: If you use all your Cruise package data, we'll automatically allow you to use additional data at a per MB overage rate found at att.com/cruise. **Talk:** For phones only. Applies to all cellular calls dialed and accepted. For the AT&T Cruise Talk, Text & Data package, if your domestic plan does not include unlimited talk, minutes of use will be drawn from your domestic voice plan allowance and domestic overage charges may apply. For the AT&T Cruise Talk & Text package, if you use all your Cruise package calling minutes, we'll automatically allow you to make additional cellular calls at \$2/minute. Wi-Fi Calling: With Wi-Fi Calling, you can call back to the U.S. at no additional charge. Calls to other countries are included in your Cruise package calling allowance. **Unlimited text:** For phones only. Applies only to AT&T Short Messaging Service (SMS) and Multimedia Messaging Service (MMS) and not to other messaging services or applications that use data, such as iMessage. Messages received will be billed at your domestic messaging rates, unless you have a domestic plan that includes unlimited text. **Pay-per-use rates:** Apply when package expires, when traveling on ships or in countries not included in AT&T Cruise packages, and/or when you have not added a package. Go to att.com/ppurates to review rates. **General: Subject to Wireless Customer Agreement at att.com/wca or, for business customers, the applicable wireless service agreement.** Availability, quality of coverage, and services while roaming are not guaranteed. Additional restrictions may apply. ©2022 AT&T Intellectual Property. All rights reserved. AT&T and Globe logo are registered trademarks of AT&T Intellectual Property.
